the establishment of competitive enterprises and the embarrassments which must necessarily result from an adverse public service correction should be to give to the city and to the community the most efficient service practicable at reasonable racks, and thus contribute to the development of the business and of the community the host efficient service practicable at reasonable racks, and thus contribute to the development of the business and of the commany the benefits which would result from an increased business and a favorable public sentiment.

I trust that you will not feel that there is any disposition on my part to tender advice to those who are clothed with the responsibility for the management of the municipal sfaairs of the city of Richmond. As an investor in your community, however, I am deeply interested in the industrial development of the city. The agrigation of the question of a municipal light plant comes at a peculiarly embarrassing time, in view of the fact that the present properties are in the hands of receivers, and the financial reorganization of these properties must soon be accomplished.

I have long readized that the present street railway and lighting properties in your community, and many of, the existing lines, are now run at an actual operating loss throughout the year. The only way in which this condition can be remedied 1st to build up the city of Richmond and increase its population. Actuated by a desire to contribut to the accomplishment of this result, and thus in the long run to render profitable my investments in your community, which as yet have produced no return, I have already made more extended efforts to interest other investors in the enterprises which I am already interested, as well as in others which I may make profitable through the development other interests in the community will be seriously affected by any movement to establish municipal plants are free from taxation, and the municipality has the power to place upon competitive enterprises in that community wil

Mr. Anderson Speaks.

As the personal representative of Mr.

and Miss Gould, Mr. H. W. Anderson, of
the firm of Munford, Hunter, Anderson
and Williams, was invited by the committees to make a statement. Mr. Anderson's argument is given in full elsewhere.
He adhered strictly to manuscript and poke over two hours.

spoke over two hours.

In the course of his argument, Mr. Anderson took up the report of Mr. E. W. Trafford, who as an electrical engineer, had been engaged by the committee, and repiled in detail to the statements contained in it. Richmond, he said, is now receiving its municipal light at a rate cheaper than any city of its size in the United States and the same applies to the light and current furnished to private consumers. This rate is already less than what Mr. Trafford suggests a reasonable rate.

Finally Mr. Anderson pointed out th Finally Mr. Anderson pointed out the effect the proposed plan would have in discouraging investors and more particularly his clients, who had already spent great sums in Richmond and contempiated spending millions more unless they were driven off by the city itself.

Was Flimflammed.

Was Flimflammed.

Responding to inquiries from Mr. Turpin, Mr. Anderson made a frank statement of the condition prevailing in the companies now controlled by Mr. and Miss Gould at the time his clients became associated with them. He went into the history of the Fisher-Munn connection, frequently exploited heretofore. Mr. Gould, he said, went to the rescue of his friends, and was soundly "filmflammed"—a word suggested by a member of the committee. The bonds he took up were almost worthless, and he would be glad at any time to get out with a loss of \$1,000,000. He bought the properties on padded accounts, the discovery of which he did not make until three months after the sale. Mr. Anderson took occasion to say that Mr. Gould had been treated with the utmost consideration on by the Richmond holders. Discovering the real condition of affairs, he had set about trying to receive the properties, which indebtedness. He was engaged now rying to rescue the properties, which

trying to rescue the properties, which are in the hands of receivers.

Mr. Anderson expressed the belief that this reorganization would eventually be accomplished by a sale made necessary by the conflicting interests and by the over capitalization of certain of the companies, Ho thought a foreclosure was likely.

Others Speak.

As soon as Mr. Anderson took his seat the committee invited a further discus-sion of the matter either for or against the proposition by the gentlemen present. Mr. Fritz Sitterding, President of the Virginia Passenger and Power Company, made a brief statement. "I was one of those endorsers." he said, by way of introduction, referring to the worthless bonds maken at by Mr. Anderson as having been taken up by the Goulds This frank declaration caused a laugh

Mr. Sitterding was caught in the Fisher fiasco to the extent of \$500,009, a large slice of which would have been a clear loss but for the providential appearance of the Goulds. Continuing, Mr. Sitterding, said he had at least \$100,000 interested in Richmond property, on which investment he received not a cent of interest. Besides this he was associated with fifteen different corporations and was therefore in a position to judge of the benefits to the city of the investment here of outside capital. People here had money but the majority of them were unwilling to put it up in sums of any nuantity, large or small.

"I have tried to get them interested," said Mr. Sitterding, "and they will turn you down as quick as lightning. I hope you will not discourage the efforts of Mr. Gould who has come here and put up large sums of money. It will certainly he to the interest of the city to postnone this thing for some time to come."

Mr. H. L. Cabell, a former president of the Chamber of Commerce, took up the discussion, appearing solely as a business man interested in the welfare of the city.

The Other Side.

The advocates of the municipal ownership plan were led by Alderman W. T. Dabney, a member of the committee. Mr. Dabney spoke briefly, declaring that Mr. Anderson had falled to touch upon several vital matters involved in the question at issue, one of which was the notable success that had met the efforts of a number of cities in the direction of municipal ownership.

municipal ownership.

Mr. E. W. Trafford called attention to the difficulties of making accurate comparisons of cost in electric service. He instanced the cost of comparing the cost of coal in different cities, which varied with the cost of mining and the cost of transportation, and stated that a mere comparison of prices per ton would not serve in an argument whether its cost at a given location was too high or

ment concerning the rights of the city to the water power of James River.

A new turn was given to the matter by an inquiry from Mr. Minor concerning the cost of a plant that would furnish light for the city government, but not for the people generally. Such a plant would not compete with Mr. Gould for the commercial trade. Mr. Minor offered the following resolution, which was adotted:

offered the following resolution, which

SORES-ULCERS THE BLOOD DISEASED -SYSTEM DISORDERED

When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet

nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges its poison into these places, they cat deeper into the surrounding flesh and tissues, growing larger and more tissues, growing larger and more to find the sufferer can do until the entire health is affected. Washes, salves, powders and such treatment are desirable for the reason that they are cleansing and also help to relieve the pain, but they are leans in no way curative. The blood is filled with poison, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evidences of impure blood. It goes down to the root of the trouble and cleanses the circulation of all poisons and impurities. S. S. S. enriches the blood and reinvigorates the different members of the body so that the impurities and waste matters can pass off as nature intended. Then the discharge ceases, the sore scabs over, new flesh is formed, and the place heals permanently. Book on Sores and Ulcers and any medical advice you need without charge.

QUAKER CITY OFFICIAL GETS OUT VOLUNTARILY

(By Associated Press.) PHILADELPHIA, PA., October 23.—Dr. Edward Martin, director of the Depart-ment of Public Health and Charities, to-

sent his resignation to Mayor The position paid \$10,000 a year Dr. Martin stated that politics had no-thing to do with his resignation. He

'I have resigned for personal reasons, I found that my private practice and the encroachment of my university work were demanding more of my time than I could give them while remaining as the head of the departent." Dr. Martin was nead of the departent." Dr. Martin was appointed by Mayor Weaver in 16-6.

The letter of resignation written by Director Martin was unusual and Mayor Weaver told the director that he was at first inclined to think it a joke. The letter was as follows:

"Some time in October, beginning of the XX century.

"Some time in October, beginning of the XX century, "Dear Chief,-Thits, my resignation, Times are too strenuous for my stappe, peasant sout. This from the sad and glad saw bones. aw bones. (Signed) "EDWARD MARTIN."

Southern Railway, against whom charges
were preferred for inadequate freight facilities in Lynchburg, which were to have
been heard by th State Corporative Commission Thursday here, has agreed to
erect an additional warehouse at once,
and the charges have been withdrawn.
The company will erect a building for receiving freight which will be coxxi feet,
and additional yard tracts will be pro-

Of the 144 cases treated in Dr. Russeil s dispensary in the New York Post-Grad-uate Hospital, in the years 1991 to 1894, 32 were dismissed for insubordination or for failure to follow instructions; as stopped coming, chiefly because they were too poor to buy the eggs andmilk that Dr. Russell found it necessary to prescribe; 28 were discharged as cured, and 33 were still under treatment on January 1, 1906, most of them well on the road to recovery. This, with a little figuring, will demonstrate the fact that the treatment as prescribed by Dr. Rustickers and one well. sell is far from visionary, and one well worthy of comment and consideration. Treatment Here.

To bring it nearer home, this mode of treating consumption is to be reproduced in Richmond, in the Nineteenth Street Methodist Institution for Christian Work. The physicians who have undertaken the attempt are Drs. W. H. Parker, George Gay and R. L. Kern. With them will be associated as nurse, Miss Didlake, of Richmond, who is now in New York taking a course of instruction under Dr. Russell. Perhaps the chief consideration is the fact that an institution similar to the one obtaining in New York under Dr. Russell, is to be established in the Ninetenth Street Mission, of which Rev. George Wiley is director. Mathodist Institution for Christian World

Russell, is to be teem of which Rev. George Wiley is director.

About three years aso a medical dispensary was established at the mission. It did a noble work. Many in need and distress found assistance and medical attention there. But there was no hope for the consumptive patient; he wasturned away, for the department could de nothing for him, muchi as it might so desire.

But this department will now take on a broader aspect, will enter a newer field, and carry comfort and hope, where before it had almost been forgotten. All patients afflicted with tuberculosis may be treated however poor they may be.

be treated however poor they may be and treated with well-formed hope of

cure.

Dr. Parker and Dr. Gay spent two weeks last spring studying in New York the process advanced by Dr. Russell. To satisfy themselves of the curative powers of the new process. Dr. Parker made a personal examination of of 37 women who had been affected with the disease and Dr. Gay 40 men. A chart showing the conditions of these natients had been kept daily from the date of their entrance. This chart showed the increase in weight, the condition of the lunes, etc. In some of the patients the disease was at its most advance stage at the time of entrance. Dr. Perker and Dr. Gay examined them, and found not the slightest trace of the disease left in their constitutions. They were satisfied as to the success of the treatment and determined to bring it to Richmond.

The dispensary will be established in connection with the Ninetcenth Street Mission, and will form a part of its work, under the supervision and control of the promoters. It is a charity organization, and the dectors and Mr. Wiley will look to the charitably minded public for support in carrying on the owtske will depend its success; but it is not hought that the citizens who have always come forward so generously with contribution for the other work of the mission will fail in this.

Nutritious Food.

The institution will be opened every day. Parker and Dr. Gay spent two

The institution will be started as soon as possible, and will be opened every day Drs. Parker, Gay and Kern will take turns in being at the dispensary, and it giving their undivided attention to the turns in being at the dispensary, and ingiving their undivided attention to the patients who come for treatment. Miss Didlake will be present every day to supervise the nursing and general treatment. The dispensary will be open twice daily, between the nours of 7 and 8 in the morning and 7 and 8 in the evening, and all patents will be required to report at these bours. The physicians state that a cure is guaranteed, provided there are no complications or extraneous diseases to mar their efforts. The treatment consists of regular and systematic forced feeding, ventilation of sleeping apartments, even in the coldest weather, the general hygienic needs of the body must be well carred for, cleanliness pre-eminently, and exercise must be limited as far as possible. The last prescribed is an entirely new departure, as exercise heretofore has been one of

prescribed is an electrody new departure, as exercise heretofore has been one of the prime points of consideration.

CHICAGO PACKERS ATTACK "BEEF TRUST" PROCESS

(By Associated Press.)
CHICAGO, October 23.—Declaring that
testimony the packers were compelled to
produce before the secretary of Commerce and Labor was used by United States District Attorney Morrison in obtaining an indictment against the packers and alleging that the same issues as mentioned in the indicatment were raised and disposed of in an injunction writ issued by Federal Judge Grosscup, the packers who are under Federal indictment here, charged with illegal conspiracy, attacked to-day again the famous so-called "beef trust" process.

A special pied in bar and an additional special plen in bar were filed by counse for the packers. The nature of the special plen in bar was a surprise to the government of this, although they were aware of what had been pleaded in the additional plea, the issuance of an injunction by Judge Grosscup.

EXPERT ACCOUNTANT DEFENDS O. M. CARTER

(By Associated Press.)
CHICAGO, October 2.—Expert Accountant Charles McFerson resumed the witness stand to-day before Special Examiner Richard Wyman in denfense of Gberlin M. Carter, former army officer Cherlin M. Carter, former army officer, who is charged with hisappropriation of almost \$3,000,000 of government funds. Figures compiled by Bank Examiner Johnson, and upon which Carter was sentenced by a court martial to five years imprisonment in Fort Leavenworth, was reviewed in detail by McFerson.

GLACIER WILL TOW BIG DOCK TO ORIENT

(By Associated Press.)
BOSTON, October 23.—Orders were today received at the Charlestown navy
yard to install a complete and powerful
towing outfit on board the supply ship
Glacier, now in the Newport News yards,
and ordering that ship to be ready to and ordering that ship to be ready to sall about December 1st for Sparrow's Point, Md. There she will join the col-liers Brutus and Caesar and tow the largest floating steel dock in the world around to the Philippine Islands. The dock probably will be stationed at Manila for the use of the United States navy. It has a lifting capacity for 20,000 tons.

NEW_ROAD PROJECT FOR NORTH CAROLINA

(By Associated Press.)

FROSTS IN BELT MAKES COTTON JUMP

Advance of Thirty Points in Market Causes Considerable Excitement; 500,000 Bales Sold. (By Associated Press.)

NEW YORK, October 23 .- Considerable ctivity and excitement attended an advance of 30 points in the cotton market to-day, due to more or less general frosts over the northern part of the cotton belt and reports of crop damage. Opening at 10.37 against 10.18 on the close of Saturday, January cotton sold up to 10.47, or about 117 points above the low leved of last week, and 29 points higher for the day on hurried covering of shorts and an expansion of bull support through wire and commission houses.

Realizing caused some irregularity late in the day, but the market was well supported, and closed steady at a net advance of 20623 points. The sales of the day were estimated at 500,000 bales. vance of 30 points in the cotton market

a mother's love.

What is More Beautiful than a Mother's Love?

"Who ran to help me when I full. And would some pretty story tell. Or kiss the place to make it well. My mother."

"All the ingredients entering into The incomplete the i comforts because of her overpowering love for the child. She becomes broken down, sleepless, nervous, irritable and feels tired from morning until night. Many mothers of experience can tell you that at such a time they have been relieved, benefited and strengthened and put into proper health by taking a prescription which their mothers had told them was the best woman's tonic and nervine to'be taken at such times. Dr. Pierce's Favorite Prescription has enjoyed an enviable reputation for over a third of a century. In all that time it has sold more largely in the United States than any other tonic for woman's needs, and to-day its sales are greater than ever. Dr. Pierce made up this prescription from native medicinal roots without the use of a particle of alcohol and for the single purpose of curing those diseases peculiar to women and when there is a lack of womanly strength to bear the burdens of maternal duty. How few women come to this prices in the strength of the single propose of curing those diseases the burdens of maternal duty. How few women come to this prices in the strength of the single propose of curing those diseases the burdens of maternal duty. How few women come to this prices in the strength of the single propose of curing this lime with adoauted strength. duty. How few women come to this critical time with adequate strength. The reason why so many women sink under the strain of motherhood is beunder the strain of motherhood is because they are unprepared. Is' preparation' then required for motherhood? asks the young woman. And every experienced mother answers —"Yes." "I unheshatingly advise expectant mothers to use Doctor Pierce's Favorite Prescription." writes Mrs. J. W. G. Stephens, of Mila, Va. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Premay be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Fabenefits received from the use of "Fa-vorite Prescription." For one thing its use makes the baby's advent practically painless. It has in many cases reduced days of suffering to a brief few hours. It has changed the period of anxiety and struggle into a time of ease and comfort. A DUTY WOMEN OWE THEMSELVES.

"Good actions speak louder than words," so, too does the testimony of many thousands of women during a third of a century speak louder than mere claims not backed by any such

and always lavors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner

importance to the general practitioner of medicine."

"In Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does

is seldom that a case is seen which does not present some indication for this remedial agent."

"The following are among the leading indications for Helonias: Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhægia, ("flooding") due to a weakened condition of the reproductive system; amenorrhæa, arising from or accompanying an abnormal condition of the digestive organs and an anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

men."

If more or less of the above symptoms are present, no invalid women can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias.

third of a century speak louder than mere claims not backed by any such record of cures.

Miss Emma Petty, 1126 S. Olive Street, Indianapolis, Ind., Past Vice-President, Daughters of Pocalonatas, Minneola Council, also Organist, South Baptist Church, Indianapolis, writes: "For sex out of and in wedlock, as well as how eral years I suffered with leucorrhea, which was a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I realty had no desire to live. I had many medicines recommended to me and tried until I took Dr. Pierce's Favorite Prescription. In two months I was much better and stronger, and in four months I was well. Have had no more disagreeable discharge, no more pain; so I have every reason to praise 'Favorite Prescriptical and the proper covered volume. Address Dr. R. V. Pierce, Buffalo, N. Y. MEN AND WOMEN
